RESUME - Jamie Gabriel, PhD
5 Prince St, Fennell Bay NSW 2283 | 0490 896 610 (mobile) | jgab3103@gmail.com

---

SUMMARY

- Experienced educator, musician and researcher with extensive teaching experience across music and digital humanities, including musicology, music history, improvisation, analysis, harmony, music technology, together with a passion for teaching in primary, secondary and tertiary settings.
- Doctoral-qualified researcher with an interdisciplinary academic background spanning music, humanities, philosophy, computer science and mathematics, and extensive experience connecting different areas of knowledge through teaching and research.
- Experienced educator with a strong track record of working with students across different levels of prior knowledge, ability and experience, with a particular interest in flexible, individualised approaches that recognise different strengths, interests and ways of learning.
- Extensive experience developing and delivering creative arts and STEM education programs, workshops and school outreach initiatives for primary and secondary students, including programs tailored for neurodiverse learners, with a focus on creativity, engagement and hands-on learning.
- Active musician, composer and performer with substantial professional experience in jazz, contemporary music, improvisation, classical and jazz piano, guitar, electronic music and live performance.
- Extensive experience designing learning activities, developing teaching resources, mentoring students, supporting project-based learning and using technology to enhance teaching and learning.
- Brings additional senior professional experience in data science, software development and digital technologies, providing a strong foundation for integrating technology, computational thinking and interdisciplinary learning into contemporary education.
- Currently completing a Master of Education (University of Newcastle) with conditional accreditation approval to teach in NSW Schools.

TEACHING & EDUCATION SKILLS & EXPERIENCE

Master of Teaching – University of Newcastle **Current**
NESA Accreditation ID: 347296

- Teacher education (teaching areas in Music and History), with qualification and eligibility to teach across both primary and secondary settings.
- Developing practical knowledge and skills in curriculum planning, classroom practice, assessment, differentiation, inclusive education, literacy, behaviour support and student engagement.
- School-based teaching experience across Music and History, including lesson planning, classroom delivery, assessment and reflection on teaching practice.
- Experience working with students across different levels of prior knowledge, musical experience and learning needs.
- Developing teaching approaches that provide multiple pathways into learning and support students with different strengths, interests and ways of processing information.
- Particular interest in inclusive and neurodiverse education and in developing flexible classroom environments that enable students to participate meaningfully in learning.
- Qualified and available for teaching across both primary and secondary settings.

Private Music Teaching **Current**

- Private teaching and mentoring in piano, guitar, jazz, harmony, improvisation, music theory, composition and contemporary music practice.
- Experience working with students from beginner through advanced levels, adapting teaching approaches to individual interests, experience and musical goals.
- Develop lessons around practical music-making, combining technical development with listening, creativity, improvisation and understanding of musical concepts.
- Support students in developing confidence, independence and their own musical voice rather than relying solely on prescribed approaches or repertoire.
- Experience mentoring musicians and students through creative projects, performance preparation, composition, improvisation and technology-based music practice.

- Develop and publish independent teaching resources covering music theory, analysis, improvisation, rhythm and music technology.

University Lecturing and Teaching and Education Projects

Macquarie University / University Projects **2009 – 2016**

Macquarie University / University Projects 2009–2016

- Taught undergraduate and postgraduate students across Music and History, including musicology, music history, harmony, improvisation, analysis, technology and interdisciplinary subjects.
- Designed and delivered lectures, tutorials, workshops and practical learning activities, adapting teaching approaches to different student abilities, backgrounds and learning needs.
- Developed and delivered creative arts and STEM education programs and workshops for school outreach initiatives, engaging primary and secondary students across a range of ages and abilities, including neurodiverse learners.
- Designed engaging, hands-on learning experiences that encouraged creativity, curiosity, problem-solving and connections between music, mathematics, science and technology.
- Developed teaching materials, educational resources and technology-enhanced learning activities to support student engagement, understanding and independent learning.
- Mentored students undertaking independent projects and research, providing individualised guidance, feedback and academic support.
- Collaborated with teachers, academic staff and interdisciplinary teams to design and deliver educational programs and resources.
- Developed digital learning tools and educational technologies to support teaching, student engagement and learning outcomes.
- Worked across disciplines including music, history, mathematics, philosophy, computing and the digital humanities, bringing interdisciplinary perspectives to teaching and curriculum development.

PROFESSIONAL MUSIC EXPERIENCE

- Returned to active music practice and education following a career in senior data science and technology leadership.
- Active performer in jazz, contemporary and experimental music, including solo, ensemble and improvisational performance.
- High level performance skills on piano, guitar and electronic instruments, with practice spanning jazz, contemporary, ambient and experimental music.
- Member of SAJA Project, an Australia–Aotearoa/New Zealand collaborative music project with vocalist, performer and composer Sally Jamila.
- Released recorded music with SAJA Project in 2026 and continues to develop performance and recording projects.
- Develop digital music tools and teaching resources, including BeatMatrix, an iOS application for exploring complex rhythmic structures.
- Maintain an active creative and research practice connecting music, improvisation, mathematics, computation and technology.

TECHNICAL & DIGITAL SKILLS

- **Music Technology:** SuperCollider | Logic Pro | Ableton Live | Elektron Octatrack | Digitone | Syntakt | Live sampling | Looping | Synthesis | Real-time audio processing

- **Programming**: R | Python | C | C++ | Java | JavaScript/TypeScript | Haskell | Objective-C

- **Mathematics & Statistics**: Advanced mathematical modelling | Statistical computing | Numerical methods | MATLAB | R statistical libraries | Python scientific computing libraries | Data analysis | Machine learning

- **Digital & Data**: Data visualisation | Databases | Web technologies | Digital research environments | Jupyter | RStudio | Shiny

OTHER PROFESSIONAL EXPERIENCE

Chief Data Officer, Cancer Institute NSW **Dec 2021 – Aug 2025**

Senior executive role leading enterprise data strategy, governance, analytics, architecture and technology within a complex public-sector research organisation.

- Led multidisciplinary teams and mentored professionals across data, analytics and technology.
- Worked extensively with academic, research and professional stakeholders.
- Developed complex technical concepts into clear advice and practical solutions for non-specialist audiences.
- Led large-scale projects involving research, technology, organisational change and collaboration.

Manager, Data & Research Governance, Cancer Institute NSW **Oct 2017 – Dec 2021**

- Led data and research governance activities across research, analytics, technology and business teams.
- Developed frameworks, processes and systems for data governance, access, quality, privacy and responsible data use.
- Worked with researchers, analysts, technology teams and senior stakeholders to support effective use of organisational and research data.

Lead, Data Projects, NSW Department of Education **2015 – 2017**

- Developed data, analytics and technology capability within an education-sector environment, working with educators, policy teams, executives and technical specialists.
- Led data projects supporting educational planning, analysis, reporting and decision-making.
- Translated complex data and technical requirements into practical tools and solutions for education and policy teams.

General Manager, Faculty of Pharmacy, University of Sydney **2006 – 2009**

- Senior university role involving teaching and research infrastructure, academic and professional stakeholder engagement, technology, organisational development and operational management.
- Supported the development of technology and research infrastructure within a large academic environment.
- Worked across academic, professional and technical teams to deliver projects and improve organisational capability.

EDUCATION & QUALIFICATIONS

Master of Teaching (Secondary)
University of Newcastle
Teaching Areas: Music and History
Expected completion 2027; conditional NESA accreditation

PhD – Computer Science / Computational Musicology
University of Technology Sydney

Bachelor of Arts – Honours Class I
University of Sydney
History and Philosophy

Associate Diploma of Jazz Studies
Sydney Conservatorium of Music

REFEREES

Referees available on request.
